

Tung Huu Nguyen, M.D.

CARDIOLOGY CLINIC

Board Certified Cardiology and Internal Medicine
Board Certified Echocardiography
Board Certified Nuclear Cardiology

MEET DR. TUNG HUU NGUYEN, M.D.

Dr. Tung Nguyen is a Board-Certified Cardiologist who specializes in heart failure, coronary artery disease, and valvular disorders. After earning his

bachelor's degree from Yale University and his medical degree from Vanderbilt University, he completed postgraduate training in Internal Medicine and Cardiology at USC. There, Dr. Nguyen had a unique opportunity to manage many challenging cases giving him a depth of experience and expertise in complex and compassionate heart care.

OUR PRACTICE PHILOSOPHY

We believe we can achieve the best health results by applying a personalized approach to patient care. We work closely with primary care providers and other specialists to formulate customized treatment plans that address each patient's individual needs. When you put your health in our hands, you can be confident of receiving the same quality of care and attention we give to our own friends and family.

OUR FACILITY

We have built a reputation for providing exceptional service in an exceptionally patient-friendly environment. We treat a wide range of conditions and offer state-of-the-art cardiac diagnostic tests right in our office, assuring you convenience and quality.

Based in a modern, newly-built office, we are one of the few Cardiology practices in the region offering the same advanced digital cardiac ultrasound system that major hospitals use. This gives us a unique opportunity to counsel patients with abnormal findings by showing them actual moving images of their hearts on our computer workstation.

SPECIALIZED CARE

Always focused on your individual needs, we collaborate with other experienced heart specialists to provide comprehensive cardiac care. This may include invasive procedures such as coronary angioplasty and stenting, pacemaker, defibrillator, heart surgeries and other vital treatments.
